Cotton Statement.

NEW YORK, Jan. 3rd 1885. When we issued our annual cir- both noticeable for their extraordicolar in Sept. last the market for mary size. For the purpose of exhincotton and cotton-goods was very de. iting the corn some model carneribs have been constructed of indural ceasons why a more cheer- the construction of one of these cribs ful view of the situation should be are twenty-four varieties of wood, taken, we remarked that there was no. The corn shown was in all casees soprobability that the growing crop floor of the Exposition. The ears are would be a large one, and we ven-tured to predict that before the end the grains and presses there is exhibof the year the whole situation might that the grains and grass seeds are shown in now that the crop cannot much ex- diplayed in sheaves and arranged on ceed that of last year while it may screens. One screen so constructed fall short of it, and in prices a mark- displays fifty eight varieties of grasses

ed rise has taken place. The stock in Liverpool is 75,000 bales less than last year and 106,000 neath an arch so constructed. This bales less than in 1883.

Stock in U. S. Ports is 262,452 bales less than last year and 50,063 working industry of the State is well

in the world is 250,418 bales less of a large exhibit, which is flanked? than Jast year and 98,912 bales less by some excellent specimens of the

This decrease in the total visible supply is owing to the enormous consumption of cotton, which is fully as large as it was last year and larger

The export demand for our cotton has been very great this season, for although general business throughtime and a heavy shrinkage in values of all kinds has occurred, and although some leading products have been over produced, the present position young lady of Natchez. This com-

Receipts at the U.S. Ports have been free, but great stringency in money matters in the South, an unall combined to cause an early movement of the crop. So free a move- Kingsbury, and to this young lady was executably judicial, and his pro- by these mills, all the many varieties ment out of a crop of but moderate size must cause a more than usually abrapt falling off in receipts at an

In view of all these facts it is clear that the question of the cotton sup-ply for the coming year is of great the most beautiful whiteness and Tue State has lost a furthful servant importance. That the acreage will be as large as it was last year is an likely. The financial condition of the planting interest South is such that a large outlier of money is necessary to make the new crop, but it is almost certain that the prevailing | wool exhibit the aim of the commit. Chain root be elife was characterdepression in business and the timid-some has been to show the quality and by order affections und depression in business and the timid-ity of capital will cause merchants of the weedranised in the State, and and factors to greatly lessen their to this end be has collected samples and more presented a charming advances and in some instances to from each county, which will be blending of personal dignity, viviety ent them off altogether. This will classified and provided with proper and anathurs. Seen an advantable have an immense influence on the labels. In sitk culture and manuplanting and may have on the price fauture Mississippi is well to the burg Post. in the spring.

To sum up the situation in a word, many mills have been closed or running short time, stocks of goods have cotton will continue large while the supply will grow smaller as the year goes ou; general business is likely to improve, and cotton is an article quickly affected by any improvement this section is occupied by a collecin trade. The price of cotton is com- tion of models of inventions by citiparatively low now, but it is not unlikely that a steady and marked advance will take place in it as the quality of which the commissioner season progresses.

Yours truly, Latham, Alexander & Co.

A Hot Fight for the Speakership.

Special to The Times Democrat. Washington, Jan. 3 .- A prominent New York member of the House is quoted as follows in to-day's The-PUBLICAN: "Next winter will record the most memorable fight that has and arranging their exhibit, which ever taken place over the House proves to be one of great value. speakership. Mr. Carlisle has already declared himself a candidate, but Mr Randall, with his usual secretiveness is keeping his own counsel. Nevertheless he has entered the contest, Sand 3: and no one knows it better that Speaker Carlisle. These two Demo cratic leaders know that they are again pitted against each other.
